

Gen. 9:18-27

When did the races begin -
at first, it was just one pair of people
Adam and Eve
Noah - Ham - Shem - Japheth

Shem = the man of renown
Ham = Black - Hot - Settles in hot Africa
Japheth = Father of fair descendants or of those
that spread abroad.

Acts 17:26 "and hath made of one blood
all nations of men. In seven of
the main manuscripts "animated"
blood is omitted - so it would read
"Hath made of one (Adam) all nations
if you insist on other manuscripts
that are blood then remember it
is human blood - you have lived
blood but different colored birds.

^{say} Same that the color comes from climate -
even so God made the climate -
He made the conditions that produced
the different colors of races.

God then created what He had
made - purity of race - so should
we.

Superior race - (not spiritually) but
mentally - what would the negro race
be today had not some of them been
brought over here where the white race
has harmed them; what would they

be in Africa with out any combat
with the descendants of Joseph?
without any thing to keep it apart
what the white race has done —
now to mix the negro race that is in-
herently without initiative, with any
race could it possibly build a stronger
race?

if you have followed me up to
now I think you see the necessity
for segregation. It is to preserve
strong races and to maintain happi-
ness.

We, in the South, have been getting
along pretty well with it, until
outside agitators came in.

Lynching — Let Law take its
course — then will be no hell

Agitators feel that best way to break
down segregation and mix the races
is to get the little children of the
races in school to-gether

now any negro or white person
that wants to keep his race pure
will not stand for that

I think Communist have in-
spired it which was easy to

do with negro men who want beautiful white women as wives.

you see Father Divine got his white woman—

I do not hear of Russia's clamoring for integration—

I do not know what the Citizens Councils can do that will, in the best way, strengthen segregation. Hot head leaders leading to killing negroes promiscuously will not do it— we must maintain a calm christian attitude—

the sooner we provide equal facilities for the colored race the sooner the good negroes of miss. are going to join us in a strong stand for separate schools— Best way to run the NAACP out of miss. is for the two races to get along so well here that the NAACP can't grow here.

Keep a cool head and a warm heart
