

Fathers Day (Flower by Be)  
II Sam - 18/29-33 (strive for her Father)

- I. Mine the story of the Prodigal Father  
II. It is time to take stock and see how we have "stacked up" for the year since last June.

many a father has seen a new depth to his love for the son - since that son is out on a crusade to save the home father and mother have built.

- III. The father - being busy - naturally does not show up for much - you will do something along the way that may prove a blessing - you brought me a surprise last year as we talked over the road we had traveled up to that time - He said "Daddy as I went over 'foals' this I faced temptations you did not dream I had - I saw <sup>some of</sup> my boy friends fall but I would always remember what you would say when I left the house for a party etc - "You remember that you are a writer"

"Remember That you are a Christian"

IV. I like to think of old Mr. Josselyn - "I have never done anything yet I am a success"

a - Harry -

b - Daughter - a professor

c - second daughter specialist in "motherhood"

d - second son - prominent in politics -

V. The mother will do the bulk of it but there are nitches we can fill in - some are vacant -  
"a boy will love his mother but worship his father"

VI. Father should { systematize time  
visualize for children  
spiritualize environment.

VII. In the story of the Prodigal Son Jesus showed father forgiving

VIII. "The lost boy"

a. Church lost him because the minister preached for the ear of older set -

b. Mother lost him as she tried to look around to hear, cords, cock tails etc
