

GOOD TIDINGS TO ALL
PEOPLE

Lk. 21:10

Arthur Birdwell Patten said, "To forget Christ's program is to forget His person. The average man believes very little in the program of Jesus. It is easy to believe in Jesus for America but hard to believe in Him for China. Call on a man to give to foreign missions and he gives because it is you asking rather than because he loves the Chinaman."

Commotion has marked some of our mission fields lately and some are saying, "We are thru with the foreign fields now."

All of you have been to the movies some time in your lives, I guess. (Theatre when a boy) after curtain fell at end of act one all got hats and started home. China missions are like a play. We have been looking at act one. What have we seen?

- a. The organization of the church and its institutions.
- b. Hundreds of thousands of conversions.
- c. Missionaries killed, and all manner of hardships.

The curtain fell. Many are ready to pick up their hats and cease supporting missions.

When the curtain falls at the end of act we know that when it rises the scene will be different. We are now in act two.

In act two we see Nationalism etc.

It is like a home. Under adolescents and in adolescence.

Withdraw? Not if we are Christians

Ill, the old sick woman in China quack's office with 17 needles in face. Two blocks away our hospital full, Drs. and nurses treating them and chaplain pointing them to Jesus. Withdraw? Not
