

Objections to the proposals 1, 2, 3, & 4

1. Nationalization can't look the fact that the human species is entirely dependant upon the development of individuality or personality.

2. Companionate marriage is not essential to love.

See the scene at R.R. Station when young mother was met by her parents who looked joyously upon their first grandchild - you can't take such experiences as that out of life and still have civilization.

The Chinese man leading two children - his face lighted by an inner delight that came from his little companions of his own blood - you can't take such relations out of life and still have civilization left.

The college boy in conf. with the pastor bewailed the fact that Companionate had spoiled two lives and had become withered leaves and ashes - his hands - It leads to wife swapping to motherless women and unhappy women. Love - is - Killed - in Companionate marriage

It is all something of the same
and born of sin - to ensure the
personal and then responsibility
the mate desire for children is there
but sin is fencing off the fact -

Now about legalizing birth control -
as you know it is illegal to destroy the em-
bryo - it is more it is murder.

we do not surrender either directly
or by compromise the ideal of chas-
tity and purity upon which the family
is based -

tampering with this practice re-
cently caused 50 girls in one uni-
versity to be exposed to shame and
death and a foolish - murdering
doctor haled into Court.

About more freedom for women -
let us say that women are born to
better things than mere manipulation
of what others produce - They are born
to help create a new humanity

are we to save mother's day? Is it to
remain in the calendar or drop
out as a weak sentimentalism
that we have outgrown?

will those of us who wear the white
flower of memory and those who wear
the red flower of devotion tear
them from their places - these symbols
of reverence and throw them to the

to unthier and die forever?

Do not believe that we are willing to do without our mothers in the sweet realm where we have always held them.

But if we are to keep them right there how are we to proceed?

→ Honor thy father AND thy mother - How?

1. First by the children we give to the world Francis Peabody said - "The desire that ones boy shall be unstained and healthy minded means that the parent is to be pledged to the same kind of life - the more sorrow any parent could know is not that he was to be lost but that his sin reproduced in his child would send the child to perdition - But the deepest happiness awarded come from the assurance that his child trace his healthy body and strength soul to the influence of the child hood home -

2. Honoring parents begins in sex reversal among young people, any thing that destroys this is sin.

3. It means radiant robust health of body - to become healthy parents

There are two equal forces operative in Christian religion - ① Repentance
② Forgiveness

The highest we know of divinity touches
the lowest we know of humanity and
the miracle of redemption is complete
It is but natural then that the mother
of Jesus should be honored and that
true motherhood every where and
always should be honored —

It is motherhood more than any other
possession in life that expresses the mystery
of redeeming love —

It is like the mother to care for
the 1. Littlest
2. Faultiest
3. Lost

Ed - a mother first born came to her
late in life and was defective -
years passed B.4. It could walk - and
longer B.4 it could say "mother" but
patiently the mother worked for ten years
to bring out faintest development
yes - it is like the mother to love the faintest
Faultiest
Lost

To-day unashamed we sing with
Rider Johnson young -

Shine I love the dear silver that shines in your hair
and the brow that is wrinkled and furrowed with care
I kiss the dear fingers, so toil worn for me
Oh - God bless you and keep you Mother Mac Tree"
