

The Value of a Human Being

The crucifixion of Jesus can be traced back to a grain field and a house of worship.

After each of these events the pharisees went to work to have Him arrested and put to death.

So Jesus in defense of human value made His first step toward the Cross.

No person has ever been able to figure out the value of a human being. But we do know why he is worth more than a sheep (anything else).

There are four factors that determine that value.

1. personal value. no two persons are alike. Each one has a different finger print. Personality our only possession.

2. The unknown value. we do not know what a child will become.

Ex. Matteo the father of Italian painting was son of poor peasant.

Ex. Goya - the Spanish painter born in a hovel - neither father dreamed of what his son would become.

3. Care for children.

3. The Known value, = Influence of
one personality on another - teachers,
parents, preachers etc.

4. Divine value,
