

THE-4-FACED-MAN

Exh. 1110 - Rev. 4/6

Calumny

we hear a good deal about two faced men. a two faced man is an undesirable creature. a man passed a group of men and some one remarked, "there goes a two faced man" - another asked, "well why does he not wear the other one some time?" when a man is two faced either face looks bad.

In our text we have a four faced man.

I. The face of a man - In a man's face there is the look of intelligence - & do not mean that all men look intelligent. But above all line things man is the only one with intelligence. Intelligence really means information - now you know that all people are not informed - Some think they are when they are not. a young graduate went out to see an old farmer and said, "you are using out of date methods for farming, I would be surprised if you make 10 lbs of apples on that tree" - "So would I" said the old farmer, "for it is a pear tree."

A man's face is a spiritual face - some have the feelings of the soul shine through the face. "The four had the face of a man" intelligent, spiritual

II. The face of a lion, ^{Strength &} Courage. In the promotion of the Kingdom of God it has taken more courage than it has for the explorers of north pole etc. Livingston etc. no molly Coddle makes a good Christian. ^{to - Explore - Experiment in science - But more in K of God where there are moral issues.}

III. The face of an ox. This illustrates suffering toil - you have missed some thing if you have not ridden an ox waggon - Have you heard the pop of the whip? The double pop means ready for action - many of our people need to hear the double pop.

IV. The eagle - aspiration - the eaglet hatched in your back yard is not satisfied until some day he soars above the clouds -

So let us be informed, having courage, the spirit of suffering toil, and with it the aspiration for higher heights. -

no mother is satisfied for her child to stop this side of the best - no child, or man, or woman should be satisfied with less than the highest attainment.

"Senator let me brush you off"

"I am no senator"

"well judge I'll brush you up good"

"But I am not a judge"

"well boss what is you?"

"I am just a Bishop of the M.E. Church South"

"well I knew you was de highest of whatever you is"
